Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## Status

### **DETAILED ACTION**

1. This communication is in response to Applicant's amendment filed on February 28, 2007. The rejections cited are as stated below:

#### ***Response to Applicant's amendment***

2. Applicants' amendment filed on February 28, 2007 have been fully considered, and discussed in the next section below or within the following rejections.

Examiner acknowledges Applicant's amendment to claims 17-21, and therefore withdraws the pervious office action regarding the 35 USC § 112 2<sup>nd</sup>.

#### ***Claim Rejections - 35 USC § 112***

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 17-22 are rejected under 35 U.S.C. 112, first paragraph, because the specification does not reasonably provide enablement for a claim covering every conceivable means for achieving the recited purpose. The specification does not enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make or use the invention commensurate in scope with these claims.

Applicant has amended claims 17-22 to remove recitation of "a communication module, a remote clock module, and a bid selector module". Presumably this was to

eliminate the use of the term "modules" so that the claims have structure or hardware that performs the function, because Applicant's claimed limitations consist of modules (software according to the specification) that do not describe the structure of the device.

Instant claims 17-22 as amended are drawn to "a remote auction terminal", regardless of construct, that performs the function recited is not in compliance with the description requirement. The resultant claims yield a "remote auction terminal" that achieves a result without defining what will do so.

This parallels the fact situation in *Fiers v. Revel*, (CAFC) 25 USPQ2d 1601, 1606 (1/19/1993), the CAFC, where "a DNA" and a result was recited. The CAFC affirmed a rejection under 35 USC 112 of a claim reciting a single element that did not literally use "means-plus-function" language, stated in *Fiers* at 1606 "Claiming all DNA's that achieve a result without defining what means will do so is not in compliance with the description requirement. See also *Ex parte Maizel*, (BdPatApp&Int) 27 USPQ2d 1662, 1665 and *Ex parte Kung*, (BdPatApp&Int) 17 USPQ2d 1545, 1547 (1/30/1989), where the claims at issue were rejected for being analogous to single *means* claims even though "means" was not literally used.

Claims 18-22 are rejected as they depend on claim 17.

#### ***Allowable Subject Matter***

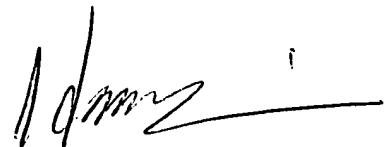

5. Claims 23-31 are allowed.
